People use different words when they search for your products online. Use these 'keywords' in your website copy and people will find your site when they search.

No matter what business you are in, Wordtracker will tell you the words people use when they search - and how popular each word is.

With a Wordtracker subscription, you will be able to:

- **Optimize your website content by** using the most popular keywords for your product and services
- **Generate thousands of relevant keywords** to improve your organic and PPC search campaigns
- **Research online markets**, find niche opportunities and exploit them before your competitors

In short, your search engine ranking will soar, you'll get more visits to your website and more people will buy your products.
